Man Can Shake the Earth. A peculiar freak of nature has ap peared in Irishtown. O. It is the opinion of many that the village stands over an underground lake. During the wet season the soil presents a spongy appearance, and a man can set a whole building lot to shaking by simply stamping his foot in the center of it. A piece of ga: pipe driven into the ground to a depth of twenty feet pro-

ground to a depth of twenty feet produces an artesian well.

A number of these wells have been flowing continuously for almost half a century with no noticeable varying in the pressure. Dry we ther does not seem to check their flow in the least. The present drought, however, has dried up the soil until large fissures, almost a foot in width and apparently bottomless, have made their appearance in different places. As this is the first appearance of these crevasses the residents of the village are considerably exercised, and some of the more credulous are fearful that the hamlet, like Sodom and Gomorrah, is about to be destroyed.

Stole His Heart Away. The heart of a man struck by a New Jersey Central train at Hound Brook was found on the cowcatcher of the locomotive at Allentown, Pa., some seventy miles distant seventy miles distant.

FOR short English typewriter girls are called typist's, while the boys are simply typists.

HILL'S POLITICAL HISTORY OF THE UNITED STATES.

%*****************

By Thomas E. Hill.

This is a large octave book of 450 pages, condensed by tabulation into a small book that it may be universally sold and circulated at a

Its purpose is to clearly present, in a manner entirely non-partisan, the merit attaching to each party. No partiality is shown in behalf of any political organization. Like the dictionary, it simply defines. It gives the best-known argument in favor of each, and leaves the reader free to choose which he will serve.

It treats upon the important live issues of the time, and is an indispensable work to people who would intelligently discuss the political situation. It is a very exhaustive compendium of Political Facts and literally answers thousands of questions. To illustrate:

What are Democratic principles!
What does a single tax advocate propose!
If all tax was placed on land, what would
be the tax on the farm! What would be the tax on suburban property, and how much on the acre worth two million dollars in the center of the city! What does a Republican believe! Why be a Republican and favor high protective tarif!

What are the arguments for and against What do the Socialists want! What would be the conditions if Socialistic principles prevailed!

What do the Populists desire! If government owned and operated the banks, and banks never fulici, and people never hid their money and all money came out and into active circulation, and money was so abundant that interest became low, and all enterprise started up and everybody had employment, what then?

What do the Nationalists want! Why nationalize the railroads, the coal What do the eight-hour advocates pro-pose! If working certain hours yields cer-tain profit, how could working less hours yield more profit!

How could women be benefited by voting! What started the financial panic of 1803; Who commenced the trade against silver-that resulted in the repeal of the Sherman law!

Who started the stampede on the banks in 1803, by which 714 of them failed in eight months, and four hundred million dollars

were drawn out of the banks and hidden within a period of ninety days! Who was President of the United States in 1849—18509—18609 Who have been the occupants of the presi-dential chair since 1870? Who have been members of the Cabinet during every presidential administration! How many Democrats, Republicans, and members of other parties have we had in each and every Congress! How many lawyers in each Congress!
Whence originated the names of "Brother Jonathan," "Uncle Sam," "Loce-Foco," "Sliver Greys," etc., etc.!
What were the issues involved in the Missouri Compromise, the Monroe Doctrine, the Dred Scott Deckion, Fugitive Slave Law, etc., etc.! What of the biographical record of the great leaders in our early history, including Washington, Patrick Henry, Hamilton, Webster, Franklin, Ciny, Calhoun, Jefferson

What has thrown so many people into dieness of late years! Why so many tramps! What is the history of the Coxey move-When did the coal miners strike begin and what was the extent of that movement!

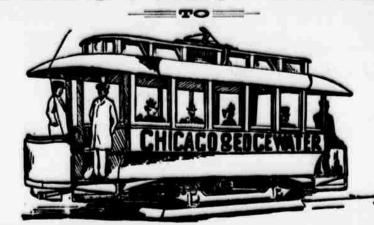

What are the facts about the Pullman strike, the American Railway Union and the boycott of the Pullman care! What are the remedies proposed where by capital and labor may each have justice? See "Hill's Political History of the United States."
